Cumbria Engineering Ltd.

Cumbria Engineering Ltd. (WCEL) is a high quality consulting firm founded in 1996. We are based in Edmonton, Alberta, Canada. Our company specializes in providing turnaround planning and management, project controls, and engineering services for large- and medium-sized turnarounds, although WCEL has also executed a number of smaller projects.

Historically, WCEL has provided services for projects in the following areas;

- Turnaround Planning
- Turnaround Management
- Capital Projects Planning
- Capital Projects Management
- Project Cost Controls
- Project Progress Controls
- Scheduling
- Forecasting
- Project / Construction Management
- Engineering
- Commissioning
- Operations and Maintenance Support
- Plant Life-Cycle Management
- Reliability

What Makes Us Different

We provide a quality service of well-trained engineers and engineering teams with thorough and constant technical and organizational support from our office.

WCEL has executed and completed over 400 consecutive projects, and organized and managed 3 complete turnarounds; each project and outage was successfully completed, as a minimum on schedule, on budget, and with excellent quality.

The level of quality is so high that all our projects are fully auditable technically and financially.

Guaranteed Quality

All WCEL personnel in the Client's service shall perform in accordance with the Client's specifications and procedures, or as required by the Client.

As a minimum, all WCEL personnel must perform to the level of quality required by WCEL's comprehensive specialist engineering, project execution, turnaround execution, and project controls procedures and specifications.

WCEL constantly monitors and provides active support to each seconded individual employee and each team, to assure the highest quality of their productivity. Our employees are never left on their own or without WCEL's full support.

Our Business Principles:

We are flexible in meeting our Clients' requirements in terms of:

- Type of contract
- Technical complexity of the project
- Size of the project
- Geographical Location

We assess our Clients' needs as accurately as possible.

We bid as accurately as possible.

We stand behind our bid.

At all times, we strive to maintain our reputation as highly qualified, no-nonsense people of integrity.
